You noticed there is no mention of I, Q, X and Y ? XY are left as chromosome placeholders 😊 . To pay heed to Intelligence and Quality, these letters/notions are associated with two names whose first letters are already occupied: Argyris, C. \* - Reason, Learning, and Action; Waldrop, M.M. - Complexity.

Many of these books are *old*. Their thoughts, however, are **more relevant today** than way back then. Especially in fast moving, virtual times against the backdrop of inundation with „knowledge“, it does not harm to know **some of the *origins* and *foundations***.
